

Regulatory Science Series

Emergency Use Authorizations for Medical Countermeasures

TUESDAY, FEBRUARY 13, 12:05–12:55 PM

Brooke Courtney

Gregory Measer

Join us for a lecture on Tuesday, February 13, from 12:05 to 12:55 p.m. with **Brooke Courtney**, Senior Regulatory Counsel at the FDA's Office of Counterterrorism and Emerging Threats, and **Gregory Measer**, Regulatory Counsel at the FDA's Office of Counterterrorism and Emerging Threats. Ms. Courtney focuses on domestic and global regulatory, policy, and legal issues to facilitate access to critical medical countermeasures for civilians and the warfighter in response to chemical, biological, radiological, nuclear, and emerging infectious disease threats. Mr. Measer works on legal and policy issues related to emergency use authorities and the monitoring and assessment of medical countermeasures during and after a public health emergency. They will both discuss how the FDA addresses public health emergencies and emerging threats.
