Regulatory Science Series

The Artificial Heart: A Regulatory Nightmare

Friday, October 26, 12:00–2:00 p.m.

Marvin J. Slepian, MD

Dr. Slepian is a cardiologist, inventor, entrepreneur, educator, innovator and more. He was instrumental in the formation of SynCardia Systems, Inc., maker of the CardioWest Temporary Total Artificial Heart (TAH-t). Dr. Slepian will talk about his experience with the artificial heart and the regulatory struggles he faced.
